CURRICULUM VITAE
M. ANOUSSIS
2024

Personal information

Name: Michalis Anoussis

Address: Department of Mathematics
University of the Aegean
Karlovassi 83200
Samos

Email: mano@aegean.gr

Education

1980	Bachelor in Mathematics, Department of Mathematics, University of Athens..
1982	D.E.A. "Mathématiques Pures", Université Denis Diderot (Paris VII)
1985	PhD (Doctorat de Troisième Cycle), Université Denis Diderot (Paris VII).

Academic position

Professor
Department of Mathematics
University of the Aegean

PhD students   G. Andreolas, 2014

Title: "Compact operators on operator algebras"

C. Magiatis, 2018

Title:" Multiplication operators on operator algebras"

Research Interests

Operator algebras

Harmonic analysis.

Publications   1.   *Descriptions of nest algebras*, Proceedings of the A-
                        merican Mathematical Society **109** (1990), 739-745,
                        MR 1009984.

                   2.   M. Anoussis
                        Sur les caractères des groupes de Lie résolubles, An-
                        nales de l'Institut Fourier **41** (1991), 27-48, MR
                        1112190.

                   3.   M. Anoussis
                        *Intégrales invariantes et formules de caractères pour
                        un groupe de Lie connexe à radical co-compact*, Bul-
                        letin de la Societé Mathématique de France **120**
                        (1992), 347-370, MR 1180834.

                   4.   M. Anoussis, M. and E. G. Katsoulis
                        *Complemented subspaces of C_p spaces and CSL al-
                        gebras*, Journal of the London Mathematical So-
                        ciety **45** (1992), 301-313, MR 1171557.

                   5.   M. Anoussis
                        Interpolating operators in nest algebras, Proceedings
                        of the American Mathematical Society **114** (1992),
                        707-710, MR 1079885.

                   6.   M. Anoussis, E. G. Katsoulis, R. L. Moore and T.
                        T. Trent
                        Interpolation problems for ideals in nest algebras,
                        Mathematical Proceedings of the Cambridge Philo-
                        sophical Society **111** (1992), 151-160, MR 1131486.

                   7.   M. Anoussis, E. G. Katsoulis, R. L. Moore, and T.
                        T. Trent
                        *Interpolation problems for Hilbert-Schmidt opera-
                        tors in reflexive algebras*, Houston Journal of Ma-
                        thematics **19** (1993), 63-73, MR 1218080.

                   8.   M. Anoussis, E. G. Katsoulis and S. C. Power
                        Compact solutions to an operator equation in nest

and CSL algebras, Indiana University Mathematics Journal **42** (1993), 283-294, MR 1218716.

9. M. Anoussis, A. Katavolos and M. Lambrou
    On the reflexive algebra with two invariant subspaces, Journal of Operator Theory **30** (1993), 267-299, MR 1305508.

10. M. Anoussis and A. Katavolos
    Isometries of C_p spaces in nest algebras, Journal of the London Mathematical Society **51** (1995), 175-188 MR 1310730.

11. M. Anoussis and A. Katavolos
    Unitary actions on nests and the Weyl relations, Bulletin of the London Mathematical Society **27** (1995), 265-272, MR 1328703.

12. M. Anoussis and E. G. Katsoulis
    Hilbert-Schmidt and finite rank operators in CSL algebras, Journal of Operator Theory **34** (1995), 307-314, MR 1373326.

13. M. Anoussis and E. G. Katsoulis
    Compact operators and the geometric structure of C^*-algebras, Proceedings of the American Mathematical Society **124** (1996), 2115-2122, MR 1322911.

14. M. Anoussis and E. G. Katsoulis
    A non self-adjoint Russo-Dye Theorem, Mathematische Annalen **304** (1996), 685-699, MR 1380450.

15. M. Anoussis and E. G. Katsoulis
    Compact operators and the geometric structure of nest algebras, Indiana University Mathematics Journal **46** (1997), 319-335, MR 1462805.

16. M. Anoussis and E. G. Katsoulis
    Factorisation in nest algebras, Proceedings of the American Mathematical Society **125** (1997), 87-92, MR 1340374.

17. M. Anoussis and E. G. Katsoulis
    Factorisation in nest algebras II, Transactions of the American Mathematical Society **350** (1998), 165-183, MR 1451593.

18. M. Anoussis and A. Bisbas
    Continuous measures on compact Lie groups, Annales de l'Institut Fourier **50** (2000), 1277-1296, MR 1799746.

19. M. Anoussis and D. Gatzouras
    A spectral radius formula for the Fourier transform on compact groups and applications to random walks, Advances in Mathematics, **188** (2004), 425-443, MR 2087233 and Addendum, Advances in Mathematics **202** (2006), 287–288, MR 2218824.

20. M. Anoussis and I. Todorov
    Compact operators on Hilbert modules, Proceedings of the American Mathematical Society, **133** (2005), 257-261, MR 2086218.

21. M. Anoussis and D. Gatzouras
    On summing sequences in $\mathbb{R}^d$, Illinois Journal of Mathematics, **49** (2005), 905-910, MR 2210267.

22. M. Anoussis, V. Felouzis and I. Todorov
    Contractive perturbations in C^*-algebras, Journal of Operator Theory, **59** (2008), 53–68, MR 2404464.

23. M. Anoussis and D. Gatzouras
    On Mixing and Ergodicity in Locally Compact Motion Groups, Journal für die Reine und Angewandte Mathematik, **625** (2008), 1–28, MR 2482214.

24. M. Anoussis, A. Katavolos and I. Todorov
    Angles in C^*-algebras, Houston Journal of Mathematics, **37** (2011), 501–517, MR 2794560.

25. M. Anoussis, V. Felouzis and I. Todorov
    s-numbers of elementary operators on C^*-algebras, Journal of Operator Theory, **66** (2011), 235–260, MR 2844465.

26. M. Anoussis, A. Katavolos and I. Todorov
    Operator algebras from the discrete Heisenberg semigroup, Proceedings of the Edinburgh Mathematical Society, **55** (2012), 1–22, MR 2888438.

27. M. Anoussis, A. Katavolos and I. Todorov
    Ideals of A(G) and bimodules over maximal abelian

selfadjoint algebras, Journal of Functional Analysis, **266** (2014), 6473–6500, MR 3192459.

28. M. Anoussis, V. Felouzis and I. Todorov
Tensor products of measurable operators, Illinois Journal of Mathematics, **59** (2015), 577-595, MR 3554223.

29. M. Anoussis, A. Katavolos and I. G. Todorov
Ideals of the Fourier algebra, supports and harmonic operators, Mathematical Proceedings of the Cambridge Philosophical Society **161** (2016), 223-235, MR 3530505.

30. G. Andreolas and M. Anoussis
Compact multiplication operators on nest algebras, Journal of Operator Theory, **77** (2017) 171–189, MR 3614511.

31. G. Andreolas and M. Anoussis
Topological radicals of nest algebras, Studia Mathematica, **237** (2017) no. 2 177–184, MR 3620750.

32. M. Anoussis, N. Ozawa, and I. G. Todorov
Norms of vector functionals, Proceedings of the American Mathematical Society, **147** (2019), no. 5, 2057–2068, MR 3937682.

33. M. Anoussis, A. Katavolos and I. G. Todorov
Bimodules over VN(G), harmonic operators and the non-commutative Poisson boundary, Studia Mathematica **249** (2019), no. 2, 193–213, MR 3990189.

34. M. Anoussis, V. Felouzis and K. Tsaprounis
Almost disjoint families and ultrapowers, Journal of Logic and Analysis **13** (2021), Paper No. 4, 13 pp., MR 4263795.

35. G. Andreolas, M. Anoussis and C. Magiatis
Topological radicals of semicrossed products, Serdica Mathematical Journal **47** (2021), no. 1, 81–92, MR 4356383.

36. M. Anoussis, G. K. Eleftherakis, and A. Katavolos
Idempotents of large norm and homomorphisms of Fourier algebras, Studia Mathematica **267** (2022), no. 1, 109–120, MR 4460224.

37.   M. Anoussis, G. K. Eleftherakis and A. Katavolos
      Synthetic properties of locally compact groups: preservation and transference, Monatshefte für Mathematik, **201**,(2023) (2), 329–347, MR 4581491.

38.   G. Andreolas, M. Anoussis and C. Magiatis
      Compact multiplication operators on semicrossed products, Studia Mathematica, **269** (2023), 193–207, MR 4535325.

39.   M. Anoussis, G. K. Eleftherakis and A. Katavolos
      Homomorphisms of L^1 algebras and Fourier algebras. Journal of Mathematical Analysis and Applications **531** (2024), no.2, Paper No. 127824, 19 pp., MR 4656695.
